RIK-COM LGX Modular cassettes have been designed to simplify installation, and offer users an easy to expand modular system. For upgrading or maintenance purposes, cassettes can be easily unlocked and removed from the panel.

RIK-COM LGX Modular cassettes are factory pre-terminated and available in 6 duplex SC, and 6 and 12 duplex LC options. MTP connectors simply plug into the rear of the cassette, and inside preterminated multiple fibre cable splits out to either LC or SC connectors at the front.

## Features & Benefits

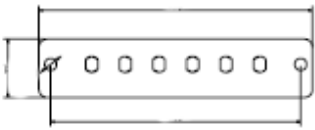

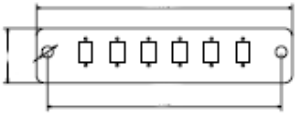

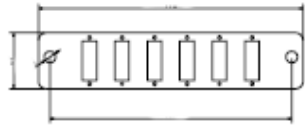

- Splits one or two 12-fibre MPO/MTP to LC duplex connectors
- Frontplate with LC duplex or quad adapter, rear plate
- Plug in and play design
- Light weight steel construction box, great protection to the fibre loaded inside
- Port labelling and serial numbered, efficient fibre identification, easy installation and maintenance
- Module snap on mounting design for easy installation
